

# On the testing day you will use a computer scored answer sheet

To familiarise you with this medium, we have enclosed a sample of the personal information you will need to complete.

Before the test day print this sample page. Look closely at this sample and then complete the blank grid as a practice exercise.

The answers to questions within each test will be marked on the answer sheet in the same way. You will choose from either 4 or 5 answers and then will shade your choice next to the appropriate question number.
